to all parts of the city each day bearing coal from the Penn and Chinook mines, both of which are owned and operated by the Penn company, to the schools, bespitals, laundries, university, many busi-nesses and thousands of homes.

To look at the offices, tipple and coal screening plant, the two latter being operated solely by the most improved power machinery a person at first does not realize that the two steadily rising and descending hoists are the cause of employment to 438 men and fur-nish the bread and butter to almost that many Edmonton families.

When the coal comes to the surface it goes directly into the shak ing and revoluting screens where it is made absolutely clean and graded as to size. Then it is loaded into the trucks and hurried directly to all parts of the city. This gives the service that has made the Penn coal famous. Because of the coal having to be handled so little the customers get nice large churks and the wastage is prac-

Motor delivery with the six to twelve inch rubber tires does not destroy lawns in spring weather and gives a swift and clastic service to patrons. There are no horses to cat your favorite trees and litter up your premises and everybody is satisfied.

The Penn company started in 1914 with one car load of coal that had been shipped into the city, but the proprietors had ambi-tion, energy and ability and it is now one of the leading industries in the city with a payroll that is exceeded by only a few of the insti-
